Recipe For Men's Ultra Sensitive Shaving Foam

If you've read GP's [interview with Big T](#) and you want to emulate him, this is the stuff he uses. Developed with the help of the tattooed ordic barber, it's different from regular shaving foams — full of air that'll dry/damage your skin. But (for [Game of Thrones](#) fans) just because you're swinging a Valyrian sword, doesn't mean you can slay a dragon. Shave carefully. **\$18**
